

# HOW TO CLEAN AND DISINFECT

## L3Harris Portables, Mobiles and Accessories

All L3Harris portables, mobiles and accessories can be rigorously cleaned and disinfected to remove contaminants.

### PERIODIC CLEANING GUIDELINES

- **To remove dust and dirt from radios:**
  - > Dampen a clean cloth with warm water and add a mild detergent soap or Simple Green® and wipe radio
  - > Then wipe the radio with another clean, warm-water dampened cloth
  - > Wipe dry with a clean cloth
- **To clean battery contacts:**
  - > Remove battery from radio and use a soft, dry cloth to wipe battery and radio contacts and remove dirt and grease
  - > Detach accessories and rub the UDC contacts with a clean, dry cloth
- **Radios used or installed in harsh environments** can be periodically cleaned with either a soft, dry cloth or soft-bristle, non-metallic brush

---

### RIGOROUS CLEANING GUIDELINES

**Do not use** chemical cleaners, sprays, denatured alcohol (ethanol) or petroleum-based products, they may damage the radio housing.

#### L3Harris approved disinfectants for radios, batteries and accessories:

- > Calla 1452 (or equivalent)
- > Isopropyl Alcohol
- > Diluted Bleach (1:10 Bleach: Water)

#### XL portable users can also choose from these products:

- > Enviro-Tru-1453
- > T36 Disinfex (Viralex)

#### To clean radios and accessories

- > Wipe down radio with disinfectant applied to a clean, damp cloth. Do not spray cleaning solution directly on the radio, control head or accessory
- > Clean radio speaker, microphone areas and accessories with a clean, damp cloth sprayed with disinfectant. Rub carefully to prevent any fluid from entering the speaker or microphone openings
- > Then wipe with a clean cloth dampened with mild, warm soapy water
- > Follow with a clean cloth dampened with only warm water
- > Dry with a clean cloth

**NOTE:** There are many sanitizing wipes on the market, the main ingredient in the wipes are untested, we can't confirm they are safe for use on L3Harris radios

**NOTE:** For the best results, refer to the individual product maintenance manuals for detailed cleaning procedures.

**NOTE:** L3Harris is unable to and did not determine whether the cleaning instructions set forth above will be effective in removing all germs, viruses and other contaminants from radio equipment.

**Non-Export Controlled Information**
